

Upcoming Changes to Trash Collection in Stroudsburg Borough

On January 1st, 2023, Stroudsburg Borough will begin implementation of a new Solid Waste Ordinance. Passed in 2021, this Ordinance requires the Borough to hire a single hauler for all residential trash collection within the municipality. **Beginning January 1st, 2023, all residences with four or less units/apartments will be required to use the trash hauler contracted by the Borough.** Apartment complexes of more than four units, and all commercial properties, are not affected by this Ordinance and will continue to use a trash hauler of their choosing.

The intent of this ordinance is to ensure consistent and efficient removal of all waste from the Borough, resulting in a cleaner and safer community. It also hopes to bring reduced costs for residents through economy of scale by contracting one hauler for all residences in the Borough.

Residences will be able to choose either a 32, 64 or 96-Gallon trash container for collection. Also, each residence will be able to dispose of one large bulk item weekly at no additional charge. Additional bags for trash disposal will also be available, as needed.

Twin Boroughs Recycling will continue to provide curbside recycling pick-up and recycling services to all residential customers in Stroudsburg.

Solid Waste User Collection Fees will be paid annually to the Borough. Owner-occupied residents who demonstrate eligibility based on federal income guidelines as outlined in the Community Development Block Grant (CDBG) Program may apply for an extension to pay the fee in three installments over a period of 180 days. *(Continued on Back)*

(Continued from Front) Borough Council plans on approving a trash hauler this summer. During September, a fee schedule for collection will be approved and published.

Thank you in advance for your patience and consideration during this complex transition for Stroudsburg Borough.
