

Stroudsburg Borough is growing – literally!

The Grow and Give Garden together with the Stroudsburg Borough are creating a community garden at the Helen Amhurst 3rd Street Park. The new community garden will provide TEN new garden raised beds to Stroudsburg and East Stroudsburg Borough residents. All levels of gardeners from beginners to experts are welcome to reserve ONE plot for their very own gardening and may plant vegetables or flowers. The community garden will follow organic gardening methods and will provide online webinars or printed material as suggested by the Penn State Extension. A fenced in area of raised garden beds with amended soil, water and limited tools will be provided. The community garden will be open for planting on Friday May 28, 2021 and will close on October 3, 2021. Reserving a garden plot is on a first come first serve basis so don't wait! Reserve your garden bed today by contacting the Grow and Give Garden @ growandgivegarden@gmail.com. A \$50 REFUNDABLE deposit is required.
